The medical service clinic consists of five departments; occupational medicine, fertility, radiology, laboratory medicine with blood bank and pathology. These cover a wide range of clinical diagnostics and treatment. We have regional functions in Health South-East within Medical Genetics, Occupational Medicine and Fertility Treatment.

Do you want to work in a hospital department with a good environment and good colleagues?

Our department of Pathology has been approved for Specialist Training Group II in Pathology, and has seven senior positions and two residents.

We have about 19,000 biopsies, about 15,000 cytological samples and about 50 autopsies/year.

Your responsibilities:

- Participate in daily diagnostics of histological and cytological tests and autopsies.
- Perform macroscopy.
- MDT.
- Active participation in resident education.

Your profile:

- Competence in histopathology, cytopathology and autopsy is required.
- It is desirable to have good experience in gastro-intestinal pathology, uropathology, gynecopathology and interest in education (resident, technicians).
- Residents in the last part of specialization are also welcome to apply.
- Applicants should have the ability to communicate in a Scandinavian language or English.
- Norwegian license must be obtained before incorporation.

We offer:

- Permanent position (after standard trial period).
- Help with relocation (housing) and kinder garden (if needed).
- Good pension and insurance terms.

Deadline: 15 / 05 / 2018.

Contact information:

Miguel Martinez Rodriguez (Medical chief).

Telephone number: +(47) 35003685.
