

Consultant Histopathologist

Østfold Hospital: Consultant

We are looking for 2 dynamic and motivated Consultant in Histopathology to join our committed and friendly team at Østfold Hospital, in Norway.

Østfold Hospital is a very modern and technological hospital which provides health services to more than 300000 citizens located in Vestby and Østfold (East Norway, in Swedish border). The hospital employs approx. 5000 staff.

Pathology Department is situated in Kalnes, integrated in the Laboratory Centre. Pathology Department has 12 pathology consultants and several residents. The department processes approx. 30000 histology, 26000 cytology and 100 autopsy specimens per year

Main duties of the job:

- Diagnostic of biopsies, cytology, autopsies and molecular analysis.
- Training of residents.
- Biobank.
- Participate in clinic studies.
- Participate in relevant MDT.

Qualifications:

- Norwegian authorisation.
- Experience in several of following areas: skin pathology, gynaecological pathology, urological pathology, gastrointestinal pathology, lung pathology, breast pathology, cytopathology and autopsies.
- Candidates must be able to communicate in Scandinavian language (candidates can communicate in English at the beginning, but it is expected they learn and work in Norwegian as soon as possible after some months).

Closing: 01.12 2021
